Aircraft Classification Number (ACN)			
No. of Movements and Date/Time of Movements			
Airport	<input type="checkbox"/> Bedourie <input type="checkbox"/> Birdsville		
ACKNOWLEDGEMENT OF TERMS AND CONDITIONS			
Terms and Conditions	<ol style="list-style-type: none"> 1. Current published pavement information can be found in En Route Supplement Australia (ERSA). 2. Any Notice to Airmen (NOTAM) takes precedence over this pavement concession. 3. This concession is issued as a dispensation against published pavement ratings only, and does not constitute approval to operate into an aerodrome not meeting the physical characteristics required, or which vary from requirements in the Aircraft Flight Manual 4. Severe braking and sharp turns must be avoided. 5. Turns of 180° must be made at runway end turning nodes or on the apron 6. All turns to be made at minimum speed and maximum radius, not closer than two metres from the edge of the runway seal, to avoid pavement damage. 7. Pavement must be dry to depth under movement area; <i>Condition 7 will only be applicable after extended periods of wet weather (continuous rain for more than 48 hours) and we suggest that you confirm with Council whether moisture has affected the movement area.</i> 8. The aircraft operator will be liable for costs associated with pavement damaged directly attributable to not complying with the above operational requirements. 9. This pavement concession is approved on the basis that the Aerodrome Operator will not accept liability for any damage to the aircraft or its occupants which may result from the aircraft exceeding the published pavement rating.
