

SUSTAINABLY DEVELOPING THE OUTBACK

PUBLIC NOTICE

Pest Control Services

For residents of Council and Community houses ONLY.

Council wishes to advise that the Pest Control Contractor, Minserv, will be in Bedourie from 7th to 10th April and in Birdsville from 13th to 14th April.

Being a remote area Council does not need to issue entry notices as we do not have a suitably qualified tradesperson locally. Please be aware that this will be a full service and will involve treating both the inside and outside of your house.

Council considers pest control to be an essential service and will implement the following COVID-19 precautions:

1. All householders are asked to leave the house while the contractor is performing the service;
2. Only outside services will be performed where householders are in self-quarantine;
3. The contractor will not have any direct contact with any community members or Council officers and will wear appropriate PPE.

As Council will not be able to give you a set time or day could you please ensure your property is accessible and safe to enter on the days indicated above. To arrange a specific time for the service, when your house will be empty, or if you have any questions or concerns please contact Jane Bosward, Administration Officer, on 07 47461600.
